

Raja Rogers Meeting Notes
September 22, 2006

Many in FF having good experiences. Maharishi said that we will test the degree of consciousness we all have as a group. Desire for 1800. Don't have any other desire. Just desire for 1800.

We don't think if it doesn't happen. We don't think of that as a failure. Then we will have to rethink everything. If it doesn't happen this week, then we give it one more week.

I know we are focused on many things, but the best focus is Maharishi's - the focus of a supremely divine being.

I would like all Recertified Govs to innocently make some calls, reminding everyone to call their friends.

All the Recert Govs are part of the group on the course, even if we aren't on the course. If we aren't on the course, then the least we can do is coordinate flying times. Things will change and either we are going to have a smooth landing or a rough landing, Raja Ram said.

Jeff Murphy: We've been doing calling and emailing, but there are some people we are not reaching. How about a National mailing?

Raja Rogers: About 24,000 have not responded, as we have only 2,000-3,000 who have applied. You can get together some plans for a mailing for a week from now, but seems that Maharishi wants us to do this on the level of consciousness. The main attn for everyone is to simply have that faint desire.

Jeff L: Faint desire – have before, during program or throughout the day?

Raja Rogers: No mention of when to have the desire. Easily, but make it from a deep level of experience. Maharishi won't connect for 3-4 days. Seems to be all in conjunction with the 9 days of Mother Divine.

Jeff Moses: Should we call a lot of people on our list or just have the desire?

Raja Rogers: Both

Pat: If Recert Govs all go, that would mean 300 more.

Raja Rogers: Yes, but that didn't come up. If your area is covered and the finances are there, then go.

Maharishi is thinking long-term, long-term.

Alcine: 9 days may not be a good time to travel. If you have initiates who are flyers, they would be a good group to focus on calling.

Raja Rogers: Yes

Jeff L: Is the offer of \$500/mo for the 1 yr commitment still being made?

Raja Rogers: Yes, if people need the money.

Number of people from each domain that have registered for the Inv America course and for the one year commitment. Raja Wynne – over 1000. Raja Konhaus – 350 Raja Bob – 290 Raja Rogers – 270. We have the potential to move up to 3rd. We have a very strong team. We are doing better than NY and New England. I have to complement everyone on the teamwork.

We know he's testing, that he's inspiring everyone and that it's the need of the time.

Houses are being built for people in FF and MVC. Idea has been floated of putting up a mobile home park and as the houses are constructed, the mobile homes would be sold.

Stuart: Focus on meditators who want to become Sidhas. Remind people of the 1 year commitment to learn the Sidhis. Is this still lively?

Raja Rogers: That is slightly unclear right now. Maharishi is very focused on the flyers now. He said, the students are students and they are going to school. They can get the free yogic flying course, but not the \$500/mo support.

Joe: Enjoying the call!

Raja Rogers: Welcome!

Jane: Is MUM or MSAE talking to students who have graduated and making a special appeal to come back?

Raja Rogers: Yes. Have that simple desire for 1800. Meet again on Tuesday.
